

BSRT Needs Assessment Survey

A BSRT Needs Assessment Study Group is conducting a statewide evaluation to determine the workforce, educational, and professional development needs of respiratory therapists and employers across our state. This information is essential to determine the needs of a BSRT program when seeking accreditation from the Commission on Accreditation for Respiratory Care (CoARC).

Thank you for contributing to this important statewide initiative and for supporting the advancement of respiratory care in South Carolina.

Participation is voluntary, and all responses will be reported in aggregate form.

**Feel free to complete a survey that applies to you. You can complete more than one survey.
The survey will end on June 10, 2026.**
